

Welcome to the third LIFE ALL-IN newsletter that will keep you informed about the evolution of this innovative project, conceived to **drastically reduce the environmental impact of the hygienic products sector.**

Recently, halfway through LIFE ALL-IN R&D project, we had the chance to share the work in progress, in a dedicated e-workshop with a great participation of the business community and the institutions.

If you lost it, here is how to start a new revolutionary LIFE project and create solutions can shape the future of hygienic products sector.

LIFE ALL-IN project next steps?

Hoping LIFE ALL-IN team has answered all your queries. What's next? 3 important milestones are planned in the coming months:

1. Complete the **processes validation** for all the technical actions
2. Complete the **LCA calculation** to verify the final environmental

impact of the project

3. Continue the Life ALL-IN **dissemination and networking** to obtain the expected results of economic growth, job creation and health benefits

A project granted by Life Programme

LIFE ALL-IN is an EU project n° LIFE19 ENV/IT/000230, granted by the LIFE programme and belongs to the Environment action sub-programme.

This document reflects only the author's view, the EC is not responsible for any use that may be made of the information it contains."

LIFE programme is the EU's funding instrument for the environment and climate action created in 1992. For the period 2014-2020 the LIFE programme has a budget of more than €3 billion at European level, divided into two separate sub-programmes: the "Environment" sub-programme and the "Climate Actions" sub-programme.

The European Commission manages the LIFE programme through its services Directorate-General for Environment and Directorate-General for Climate Action, and its Executive Agency for Small and Medium-sized Enterprises (EASME).
